

Spotlight of the Month:

Student Maryuska

(2022) My name is Maryuska. Since I joined CLUES last year, my English conversation, pronunciation, and grammar have improved considerably. The teachers and the coordinators are caring, respectful, and have a great sense of humor. The coordinators are always available and eager to help.

CLUES' additional Computer, Customer Service and Banking, and GED classes have done more than enrich my general knowledge. They also have improved my language skills by requiring me to speak more while focusing on subjects in English.

To me CLUES isn't just a place to learn English but also a place to meet friends and become involved in the community. Through one of my English teachers, I managed to connect with the group Latinos en BiciMn and now my husband and I enjoy bike rides with a big group of Latin people. I've also learned about regional and Latino news websites.

I'm very grateful to CLUES. It has made my life in Minnesota more enjoyable.
