

Spotlight of the Month: Level 1 Morning Teacher – Patricia

(2023) Patricia has been teaching ESL at CLUES since 2007 and we are so thankful for all she has done for our students. She first started with our in-person classes and now continues to teach virtually via zoom. Patricia constantly refreshes her teaching approach with creative and engaging activities. On zoom Patricia enjoys using the digital whiteboard for a variety of activities such as storytelling and word searches. Often she will have students generate a list of words based on a question, then use those words to play a game while practicing spelling. Below you can appreciate some of the images taken from her classes. As you can see, her classes are very personalized, comprehensible and fun! Thank you Patricia!
